

REMARKS

Responsive to the Restriction Requirement of March 21, 2007, Applicants hereby elect Group I, directed to a zeolite catalyst.

Applicants do not traverse the restriction requirement because it is correct on the one hand, and also there is the possibility of rejoinder of the process claims if they are made dependent on allowable zeolite catalyst claims.

It is also seen that this amendment provides editorial corrections to the claims without any intention of narrowing the scope of same.

It is also seen that new claims 15 and 16 are directed to the use of triethylenetetramine as a structuring agent since this particular structuring agent provides an improvement to the zeolite catalyst.

In view of this response, an early action on the merits of the invention is courteously requested.

The Commissioner is hereby authorized to charge any fees associated with this response or credit any overpayment to Deposit Account No. 13-3402.

Respectfully submitted,

I. William Millen, Reg. No. 19,544  
Attorney for Applicant(s)
